

## S1 Appendix: The firms' information of each selected community

- **S1,S2,S3,S4,S5,S6** Tables represents the firms' information of each selected community. **S1** Table is for Nishijin silk fabrics, **S2** Table is for Kyoyuzen dyeing, **S3** Table is for Kyoto doll, **S4** Table is for consumer games, **S5** Table is for electric machinery, and **S6** Table is for civil engineering community. firms' information include no., sector, the number of degree, betweenness centrality,  $R_{lr}$ ,  $D_{lr}$ ,  $B_{lr}$ , bow-tie component in Kyoto's supplier-customer network, profitability, and productivity of firms in each communities. Only traditional craft industries have "In association" column, which indicates whether the sector of the firm is same as the firm that belongs to association of each industry. If the value of "In association" column is 1, the firm belongs to the same sector as the firm that belongs to association of each industry.

S1 TABLE: the firms' information of the Nishijin silk fabric industry  
(subcommunity 4-1). “-” in some fields indicates missing information
